Invoice No. 202426
(based on order No. 26/2024)
31st July 2024

I am invoicing you for creating a database of new information in the field of mental health in English.

Item	Price unit	Total
Creation of a database of new information in the field of Mental Health in AJ		
1. Data collection - Searching and gathering current and relevant mental health news from a variety of trusted sources (e.g. trade journals, news websites, blogs, official reports of organizations). - Identification of key topics and trends in the field of mental health.	250€	250€
2. Categorization and organization: - Sorting and categorizing news according to specific topics (e.g. new research, therapies, legislative changes, patient stories). - Organization of data into a clear and structured database.	250€	250€
3. Creating a database: -Using appropriate database software or tools (eg Microsoft Access, SQL, Google Sheets) to create a user-friendly database. -Ensuring that the database allows easy searching and filtering of information.	250€	250€
4. Documentation: - Creation of documentation that will contain instructions for using the database. - Providing training (if required) for database users so that they can effectively use all functions.	250€	250€
5. Final training: -Transfer of information about the database system to the communication section. -Preparation and presentation of a final report summarizing current topics resonating in the field of mental health from sources and the English language.	200€	200€
	Tax (0%)	\$0
	Total	1200€

Thank you!
